INSTRUCTIONS TO BIDDERS**

These instructions will bind bidders to terms and conditions herein set forth, except as specifically qualified in special bid and contract terms issued with any individual bid.

1. The following criteria are used in determining low responsible bidder.
 - a. The ability, capacity and skill of bidder to perform required service.
 - b. Whether bidder can perform service promptly or within specified time.
 - c. The character, integrity, reputation, judgment, experience and efficiency of bidder.
 - d. The performance of previous contracts.
 - e. The suitability of equipment or material for City use.
 - f. The ability of bidder to provide future maintenance and parts service.
2. Payment terms are Net 30 unless otherwise specified. Favorable term discounts may be offered and will be considered in determining low bids if they are deemed advantageous to The City.
3. Unless otherwise specified all materials, supplies or equipment quoted herein must be delivered within thirty (30) days from date of notification of award or by exception noted on bid sheet.
4. Prospective bidders are responsible for examining the location of the proposed work or delivery and determining, in their own way, the difficulties, which are likely to be encountered in the execution of same.
5. The ESTIMATED QUANTITY given in the specifications or advertisement is for the purpose of bidding only. The City may purchase more or less than the estimated quantity, and the bidder must not assume that such estimated quantity is part of the contract.
6. All bids should be tabulated, totaled and checked for accuracy. The unit price will prevail in case of errors.
7. All requested information should be included in the sealed bid envelope. All documents and information must be signed and included for your bid to receive full consideration. **Failure to submit any required information or document will be cause for bid to be rejected as non-responsive.**
8. Failure of the bidder to sign the bid document or have the signature of any authorized representative or agent on the bid **in the space provided will be cause for rejection of the bid.** Signature(s) must be written in ink.
9. Failure to enclose bid bond, where required, **will result in rejection of the bid.** Bond may be in the form of cash, certified check, cashier's check or Surety Bond issued by a Surety Company licensed to conduct business in Georgia.
10. **All bidders should provide their tax identification number with the bid.**
11. All bidding Corporations should provide the corporate seal, a copy of the Secretary of State's Certificate of Incorporation, and a listing of the principals of the corporation with the bid.
12. Quote all prices F.O.B. Albany or our warehouse or as specified in bid documents.
13. If the bidder proposes to furnish any item of a foreign make or product, he/she should write "Foreign" together with the name of the originating country opposite such item on the bid.
14. When requested, SAMPLES will be furnished free of expense, properly marked for identification and accompanied by list where there is more than one sample. The City reserves the right to mutilate or destroy any samples submitted whenever it may be in the best interests of The City to do so for the purpose of testing.
15. The City will reject any material, supplies or equipment that do not meet the specifications, even though bidder lists the trade name or names of such materials on the bid or price quotation form.
16. Any alterations, erasures, additions or omissions of required information or any changes of specifications, or bidding schedule are done at the risk of the bidder. Any bid will be rejected that has a substantial variation, such as a variation that affects the price, quality or delivery date (when delivery is required by a specific time).
17. Each bid or proposal will be submitted in a **SEALED ENVELOPE**. Additionally, that envelope shall be clearly marked on the outside as a **Sealed Bid** with the **Bid Number** clearly printed.
18. Bids **must** be received and stamped by the Procurement Office before the date and time stipulated in bid documents. The City of Albany assumes no responsibility for submittals received after the advertised deadline or at any office or location other than that specified herein, whether due to mail delays, courier mistake, mishandling, or any other reason. No responsibility will attach to any City representative or employee for premature opening of bids not properly addressed or identified.
19. If only one bid is received, the bid may be rejected and/or re-advertised, except in the case of only one known source of supply.
20. Bids received late will not be accepted, and The City will not be responsible for late mail delivery.
21. Should a bid be misplaced by The City and found later it will be considered.
22. The unauthorized use of patented articles is done entirely at the risk of the bidder.
23. All bidders must be recognized and authorized dealers in the materials or equipment specified and be qualified to instruct in their application or use. A bidder at any time requested must satisfy the Procurement Office and City Commission that he has

the requisite organization, capital, plant, stock, ability and experience to satisfactorily execute the contract in accordance with the provisions of the contract in which he is interested.

24. Only the latest model equipment as evidenced by the manufacturer's current published literature will be considered. Obsolete models of equipment not in production will not be acceptable. Equipment shall be composed of new parts and materials. Any unit containing used parts or having seen any service other than the necessary tests will be rejected. In addition to the equipment specifically called for in the specifications, all equipment catalogued by the manufacturer as standard or required by the State of Georgia shall be furnished with the equipment. Where required by the State of Georgia Motor Vehicle Code, vehicles shall be inspected and bear the latest inspection sticker of the Georgia Department of Revenue.
25. All materials, equipment and supplies shall be subject to rigid inspection, under the immediate supervision of the Procurement Officer and/or the Department to which they are delivered. If defective material, equipment or supplies are discovered, the contractor, upon being instructed by the Procurement Officer, shall remove, or make good such material, equipment or supplies without extra compensation. It is expressly understood and agreed that the inspection of materials by The City will in no way lessen the responsibility of the contractor or release him from his obligation to perform and deliver to The City sound and satisfactory materials, equipment or supplies. The contractor agrees to pay the cost of all tests on defective material, equipment or supplies or allow the cost to be deducted from any monies due him by The City.
26. For multi-year contracts the following clauses pursuant to OCGA 36-60-13 apply: (1) The contract shall terminate absolutely and without further obligation on the part of The City or County at the close of the calendar year in which it was executed and at the close of each succeeding calendar year for which it may be renewed; (2) The contract may provide for automatic renewal unless positive action is taken by The City or County to terminate such contract, and the nature of such action shall be determined by The City or County and specified in the contract; (3) The contract shall state the total obligation of The City or County for the calendar year of execution and shall further state the total obligation which will be incurred in each calendar year renewal term, if renewed; and (4) The contract shall provide that title to any supplies, materials, equipment, or other personal property shall remain in the vendor until fully paid for by The City.
27. Unless otherwise specified The City reserves the right to award each item separately or on a lump sum basis, whichever is in the best interest of The City.
28. The successful bidder shall secure all permits, license certificates, inspections (permanent and temporary) and occupational tax certificate, if applicable, before any work can commence. Contractor as well as any and all known subcontractors must possess or will be required to obtain a City of Albany Occupational Tax Certificate or Registration.
29. The successful bidder on motor vehicle equipment shall be required to furnish with delivery of vehicle, Certificate of Origin and Georgia vendors shall provide Georgia Motor Vehicle form MV1.
30. The City reserves the right to reject any and all bids, to waive any informalities in the bid process, and to award the contract as may be in the best interest of the City and/or re-advertise for bids.
31. Local bidder (domiciled in Albany City Limits) will receive bid in the event of tie bids. In the case of tie bids between out of town companies or between local concerns, evaluated as equal, bid will be recommended or awarded by chance coin toss, or drawing straws. **The Board of Commissioners passed a local preference ordinance on January 27, 2015. Where applicable, this ordinance will govern. Local preference will not be a basis for award on bids that are federally funded.**
32. No bidder writing restrictive specifications for The City will be allowed to bid on the project.
33. Reasonable grounds for supposing that any bidder is interested in more than one bid for the same item will be considered sufficient cause for rejection of all bids in which he/she is interested.
34. A contract **will not** be awarded to any corporation, firm or individual who is, from any cause, in arrears to The City/County or who has failed in any former contract with The City to perform work satisfactorily, either as to the character of the work, the fulfillment of the guarantee, or the time consumed in completing the work.
35. It is mutually understood and agreed that if any time the Procurement Officer shall be of the opinion that the contract or any part thereof is unnecessarily delayed or that the rate of progress or delivery is unsatisfactory, or that the contractor is willfully violating any of the conditions or covenants of the agreement, or is executing the same in bad faith, the Procurement Officer shall have the power to notify the aforesaid contractor of the nature of the complaint. Notification shall constitute delivery of notice, or letter, to address given in bid/proposal. If after three working days of notification the conditions are not corrected to the satisfaction of the Procurement Officer, he shall thereupon have the power to take whatever action he may deem necessary to complete the work or delivery herein described, or any part thereof, and the expense thereof, so charged, shall be deducted from any paid by The City out of such monies as may become due to the said contractor, under and by virtue of this agreement. In case such expense shall exceed the last said sum, then and in that event, the bondsman or the contractor, his executors, administrators, successors, or assigns, shall pay the amount of such excess to The City on notice by the Procurement Officer of the excess due.
36. Contracts may be cancelled by The City with or without cause with 30-day written notice.
37. Any complaint from bidders relative to the Invitation to Bid or any attached specifications should be made prior to the time of opening of bids, otherwise such complaint cannot be properly considered.
38. Any bidder may withdraw his bid at any time before the time set for opening of bids. No bid may be withdrawn without cause in the 60-day period after bids are opened.
39. All questions, inquiries and requests for clarification shall be directed to Procurement.
40. **Prior to submission, all bidders are encouraged to check the website at www.albanyga.gov or call the Procurement Office at 229-431-3211 for any addendums.**

REQUEST FOR PROPOSALS
DARTS – US 82 & US 19 CORRIDOR COMMUTED SHED STUDY
RFP #27-005
SCOPE OF SERVICES

PROJECT OVERVIEW

The Dougherty Area Regional Transportation Study (DARTS) seeks the expertise of a qualified transportation planning and engineering consultant to conduct a comprehensive corridor and connectivity assessment for U.S. Highway 82 (N. Slappey/Dawson Rd to Terrell Co. Line) and U.S. Highway 19 (Dawson Rd. to Northern Leesburg City Limits) in the DARTS Planning Area.

GENERAL REQUIREMENTS

Albany, Dougherty County, Lee County and Leesburg are currently experiencing significant residential and commercial growth, particularly along U.S. Highway 82 from Slappey Blvd to Terrell Co and U.S. Highway 19 from Dawson Rd. to Leesburg. These two critical transportation corridors that serve as economic and mobility backbones for the region. This development surge is not only reshaping the urban and suburban landscape but is also placing increased demand on the supporting collector streets that feed into these highways.

Recent trends in population growth, housing development, and commercial investment along these corridors have resulted in increased traffic volumes, congestion, and infrastructure stress. The collector roads-originally designed for lower volumes-are now facing capacity challenges, higher wear, and safety concerns due to higher traffic loads and evolving land-use patterns.

This project aims to assess current conditions, forecast future demands, and recommend targeted improvements that align with community goals and long-range transportation plans.

OBJECTIVES

1. Data Collection & Analysis

- Collect current traffic volumes, crash history, and land use data for U.S. 82, U.S. 19, and key intersecting corridors and intersections. These include, but are not limited to:
 - State Route 32 E@ Lovers Lane Rd & Old Stage Rd
 - Intersections along the U.S. Highway 82 Corridor
 - Intersections along the U.S. Highway 19 Corridor
 - Intersections of Forrester Parkway@ Lovers Lane Rd and @ Graves Springs Rd.
 - Compile relevant infrastructure condition data, including signal operations, signage, and lighting.
 - Review previous planning documents-including the DARTS 2050 Metropolitan Transportation Plan (MTP), Albany-Dougherty SS4A, Leesburg SS4A, and Leesburg Connectivity Study-to establish a comprehensive baseline.

2. Traffic Operations & Safety Evaluation

- Evaluate congestion levels, operational performance, and crash trends along U.S. 82, U.S. 19, and select feeder intersections, specifically:
 - State Route 32 E@ Lovers Lane Rd & Old Stage Rd
 - Intersections along the U.S. Highway 82 Corridor
 - Intersections along the U.S. Highway 19 Corridor
 - Intersections of Forrester Parkway@ Lovers Lane Rd and @ Graves Springs Rd
- Utilize findings from prior studies (e.g., 2050 MTP, SS4A, and Connectivity Plans) to inform the

assessment of safety and performance patterns.

3. Connectivity & Mobility Assessment

- Identify existing gaps in roadway network connectivity and multimodal access, with a focus on expanding residential and commercial areas.
- Assess how current roadway configurations may limit efficient travel, economic development, and regional mobility.

4. Functional Classification Review

- Review current functional classifications of collectors and arterials per GDOT Standards.
- Recommend updates such as reclassifications, extensions, or realignments to improve corridor functionality and long-term regional connectivity.

5. Intersection Safety & Operational Recommendations

- Conduct detailed analysis of key intersections along U.S. 82, U.S. 19, and major cross routes, focusing on turning volumes, crash history, and delays.
- Propose targeted improvements, which may include turn lanes, revised signal timing, roundabouts, enhanced pedestrian crossings, ADA-compliant curb ramps, and multimodal accommodations.

6. Implementation Phasing

- Prioritize proposed improvements into short-, medium-, and long-term implementation phases.
- Develop planning-level cost estimates and align each phase with available funding sources and implementation feasibility.

7. Planning Alignment & Coordination

- Ensure all recommendations are consistent with the goals, strategies, and framework of the DARTS 2050 MTP and other relevant local plans (e.g., SS4A, Connectivity Studies).
- Maintain consistent coordination with DARTS MPO, GDOT, City of Albany, Lee County, and Dougherty County throughout the planning and evaluation process.
